TSUBAKI KABELSCHLEPP

Costs down – service life up

## Cable carrier systems for material flow and handling

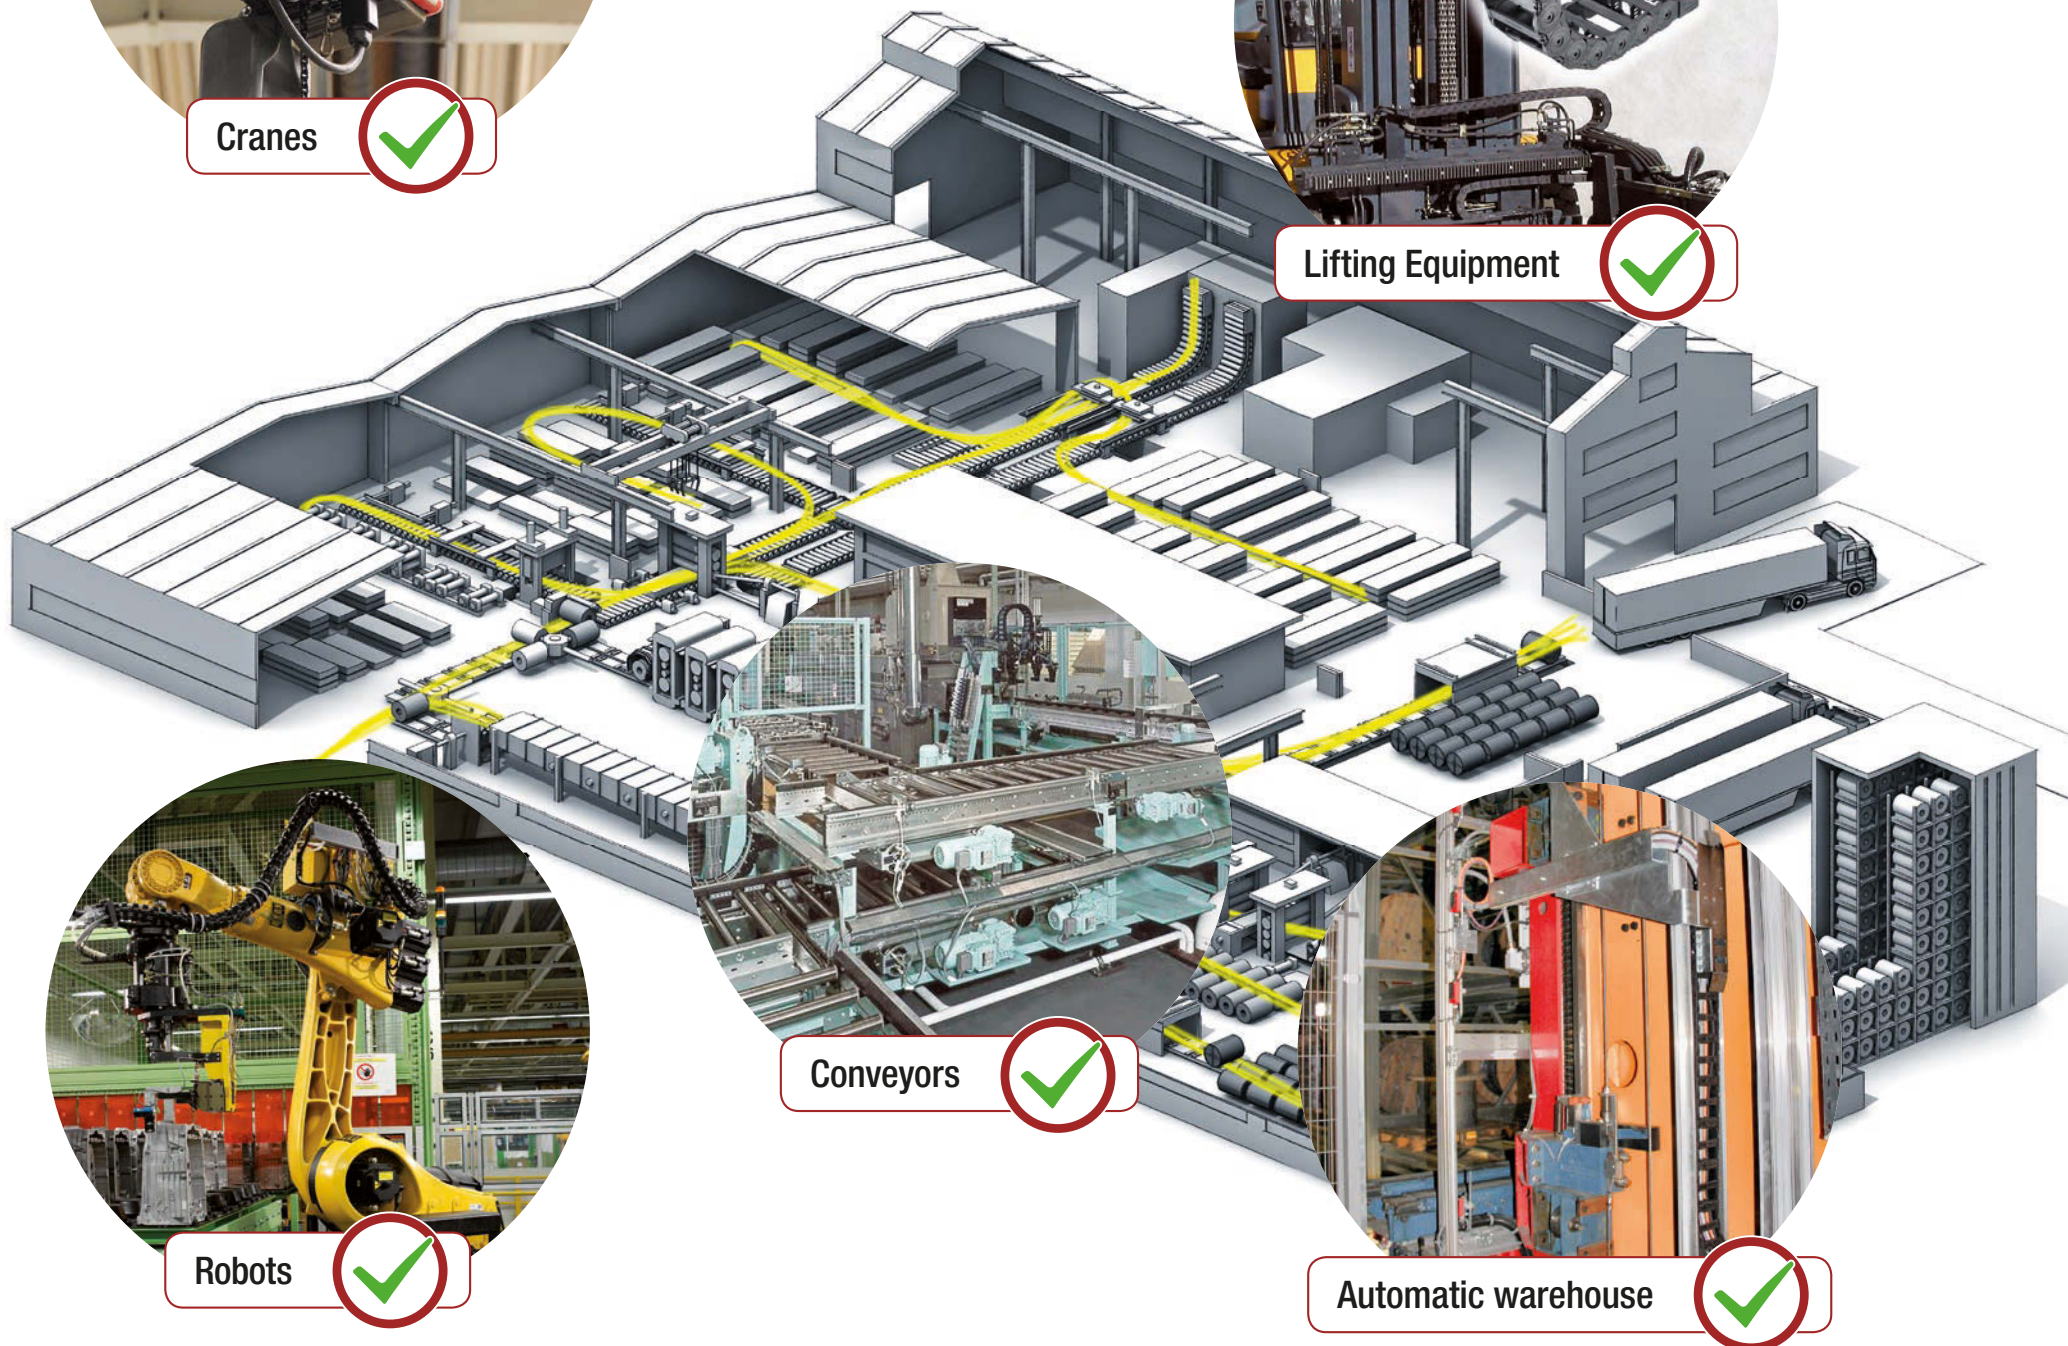

TSUBAKI KABELSCHLEPP develops customized solutions for cable carrier systems for material flow and handling. Our decades of experience from hundreds of realized projects in various industries with diverse demands on our cable carrier systems, lead to new custom and application-specific solutions for our customers. Our specialists will support you from the planning and design stage through to the onsite installation and start-up of the tested complete system.

Cranes

Lifting Equipment

Conveyors

Robots

Automatic warehouse

## Cable carriers for material flow and handling

**TSUBAKI KABELSCHLEPP** – inventor of the cable carrier. The product portfolio comprises over 100,000 steel and plastic variants as well as hybrid systems. Always a suitable, reliable cable carrier, whether standard or individual complete solution.

**UNIFLEX Advanced** (for example)

Our **TRAXLINE®** cables are continuous bending hi-flex and very durable. Tested functional reliability which meets applicable standards and guidelines is an essential criterion.

**TRAXLINE®** cables for cable carriers

- Available from 75 mm inner width and 125 mm bending radius
- Suitable for extremely long travel lengths
- Cable outlet on the driver alternatively towards the front or rear
- Standard lengths of the aluminum profile
- Mounting distance of the channel brackets flexibly adaptable

**Vertical Guide System**

## TOTALTRAX® Complete Systems

### From planning to the final complete system

Use our know-how. Working jointly with you, our experienced specialists can provide pre-sale support, including planning and design services through after sales service and support.

One order, one contact person, components optimally matched to each other, including the cable and hose carrier, the electrical cables, the hydraulic and pneumatic hoses and the connectors. You receive the complete TOTALTRAX® system in one delivery.

Reduce your storage costs with TOTALTRAX®. We supply all components Just-In-Time to your production facility or directly to the installation site.

## Expert installation by our Service Team

Let our Service Team handle the planning and execution of the installation of cable and hose carrier systems. We provide the support you need.

- complete assembly including the guide channel and the substructure
- uncoiling and assembling cable and hose carrier systems for intralogistics
- accurate installation under your conditions at high altitude
- commissioning and acceptance
