FAST, EASY AND COST-EFFICIENT **CABLE CARRIER SYSTEMS FOR AIRPORT TECHNOLOGY**

TSUBAKI KABELSCHLEPP develops customized solutions for cable carrier systems in airport technology. Our decades of experience from hundreds of realized projects in various industries with diverse demands on our cable carrier systems, lead to new custom and application-specific solutions for our customers. Our specialists will support you from the planning and design stage through to the onsite installation and start-up of the tested complete system.

Passenger flow:

- » Body-Scanner
- » Check-In
- » Display-Systems
- » Automatic-Doors

Loading/Unloading:

- » Luggage handling
- » Cargo loader
- » Belt loader
- » Pallet loader

YOUR PARTNER FOR PROJECTS

UNIFLEX Advanced

- » Light, quiet all-rounder
- » Inner distribution and strain relief
- » Universal connection types

EasyTrax®

- » Lamellae made of special elastic plastic
- » Integrated noise damping
- » Inside or outside openable

TRAXLINE® cables for cable carriers

Our TRAXLINE® cables are continuous bending hi-flex and very durable. Tested functional reliability which meets applicable standards and guidelines is an essential criterion.

Easy Guide System

- » Space-saving design
- » Fixed cables are directly mounted on the bracket (safely behind the guide channel)
- » Easy and fast assembly by only one fitter
- » The same mounting brackets for different sizes/chain types

TOTALTRAX® COMPLETE SYSTEMS FROM PLANNING TO THE FINAL COMPLETE SYSTEM

Use our know-how. Working jointly with you, our experienced specialists can provide pre-sale support, including planning and design services through after sales service and support.

One order, one contact person, components optimally matched to each other, including the cable and hose carrier, the electrical cables, the hydraulic and pneumatic hoses and the connectors. You receive the complete TOTALTRAX® system in one delivery.

Reduce your storage costs with TOTALTRAX®. We supply all components Just-In-Time to your production facility or directly to the installation site.

EXPERT INSTALLATION BY OUR SERVICE TEAM

Let our Service Team handle the planning and execution of the installation of cable and hose carrier systems. We provide the support you need.

- » complete assembly including the guide channel and the substructure
- » uncoiling and assembling cable and hose carrier systems for airports
- » accurate installation under your conditions at high altitude
- » commissioning and acceptance
