

KABELSCHLEPP

**Cable management systems
for medicine applications**

Costs down – service life up

Cable management systems for medicine applications

TSUBAKI KABELSCHLEPP develops customized solutions for cable carrier systems in medicine applications. Our decades of experience from hundreds of realized projects in various industries with diverse demands on our cable carrier systems, lead to new custom and application-specific solutions for our customers. Our specialists will support you from the planning and design stage through to the onsite installation and start-up of the tested complete system.

Patient transport

MRT, MEG, CT and x-ray

Dental technology

TKR series
to avoid vibration

Nuclear medicine
and Radiotherapy

Laboratory equipment

Your partner for projects

■ Lowest debris generation in the Cleanroom series

■ Low noise - 38 dB or less

■ More than 10 million cycles (in-house test)

ISO Class 1 CLEANVEYOR®

■ Very tight

■ Cable Carrier System completely covered

■ Integrated noise damping

IP Class 54 TKA

■ Easy shortening and extending

■ For high dynamic applications

■ High side stability

Smart MONO

■ No links no link wear

■ For high acceleration up to 300 m/s²

■ For high operating speeds up to 40 m/s

■ Extremely long service life up to 25 million cycles

ISO Class 3, 5 and 6 QUANTUM®

TOTALTRAX® Complete Systems

From planning to the final complete system

Use our know-how. Working jointly with you, our experienced specialists can provide pre-sale support, including planning and design services through after sales service and support.

One order, one contact person, components optimally matched to each other, including the cable and hose carrier, the electrical cables, the hydraulic and pneumatic hoses and the connectors. You receive the complete system in one delivery along with a guarantee certificate, if desired – in short: TOTALTRAX®.

Reduce your storage costs for cable and hose carriers, cables and connectors with TOTALTRAX®.

We supply all components Just-In-Time to your production facility or directly to the installation site.

Expert installation by our Service Team

Let our Service Team handle the planning and execution of the installation of cable and hose carrier systems. We provide the support you need.

- complete assembly including the guide channel and the substructure
- uncoiling and assembling cable and hose carrier systems for medicine applications
- accurate installation in clean conditions
- commissioning and acceptance
