TSUBAKI KABELSCHLEPP PROTUM OFFICE – P 0240 GS

Outer height
23 mm

Inner height
10 mm

Outer width
54 mm

Inner width
50 mm

[kabelschlepp.de/
protumoffice](http://kabelschlepp.de/protumoffice)

Based on the PROTUM cable carrier system this variant has been adapted to the requirements of the office environment.

Offering an inner width of 50 mm and the possibility of double allocation PROTUM OFFICE provides sufficient space for telecommunication-, power and data cables as they are used in modern offices.

This link-free design integrates itself, for example with elegant looking silver-grey side bands, harmoniously in the office environment.

Small, lightweight cable carrier

- Long service life - no joints and thus no joint wear
- Good ratio of required space to outer dimension
- Simple cable inserting by pressing in
- Easy to mount and to fill
- For subsequent installation
- Clean and space-saving installation
- Single- and double-sided laying possible

Simple, quick installation

- Connectors for all flat surfaces
- Standard connector
- Up to 4 types of installation possible (magnets, screws, cable ties and tape)
- Floor connector for stable and clean ending to the floor

Combination options for end connectors

Different combination options for the connectors are necessary depending on the model of your office furniture. They can be fixed underneath table tops/cable ducts, on rectangular or round table legs, or on the floor.

Connector A: Angled for tabletop

Table connector for mounting the cable carrier with screws either under the tabletop or onto the cable channel.

Connector B: Oval for tabletop

Table connector for mounting the cable carrier with screws either under the tabletop or at the cable trough.

Connector C/E: For table frame flat

Rectangular connector for mounting the cable carrier at the table frame. Mounting with integrated magnets.¹

Connector D/F: For table frame round

Connector for mounting the cable carrier at the table frame $\varnothing = 70$ mm. Mounting with integrated magnets.²

Connector G: Floor connector

Floor connector for a clean ending of the cable carrier to the floor covering.

¹ Version connection E available as connection C without magnets for fixing with screws or cable ties.

² Version connection F available as connection D without magnets for fixing with screws or cable ties.
